PRE-BOARDING EXPERIENCE

Pre-boarding site with PlayCampus embedment for Budapest based new joiners

PlayCampus extension
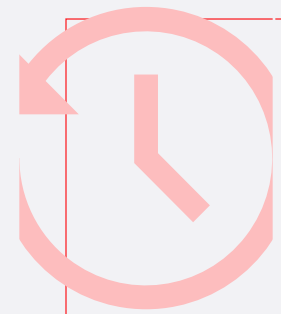

In 2022, Games for Business has implemented a learning system for MOL for **transferring knowledge about the new MOL Campus to 2500 employees in a gamified way**. The plan was to utilize the platform for other use cases.
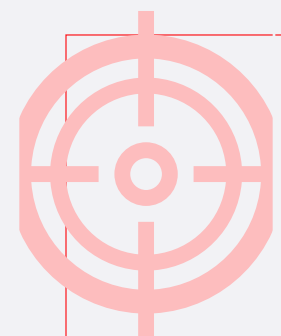

Add pre-boarding content to the existing system for newly hired colleagues. Provide support (optional) for currently unknown future project requirements.
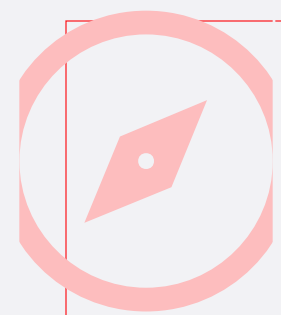

Adding a new user group to the system for new hires but make existing content also available for them. Keep existing users in the system up to the limit of the purchased user license package.

- Incorporate further elements and extending the activities on the platform
- 500 license / year + support
- Budapest focus in phase I

PRE-BOARDING CONTENT IDEAS			
Business Induction Essentials	MOL Group info	MOL Group 2030+ Strategy Video	Gamified Induction steps
• Share digitalized Business Induction materials • Graphic content for knowledge testing	• Share MOL group info site to increase new joiner's awareness prior joining	• Incorporate MOL Group 2030+ Strategy content & video	• Prepare the new joiner for DAY1 • Showcase Campus induction places
